Doug –

OECA said the EDGI report used some end of year data, but incorrectly added these EOY numbers when transposing the information to spreadsheets.

Regarding our R8 numbers, I'm attaching a PDF of the main activities OECA tracks (it doesn't include our informal enforcement or compliance assistance) showing our FY15 to FY18 numbers. I'm also attaching a table showing our inspection projections for FY19 as compared to other regions and FY18 numbers. We have our strategic planning VTC with OECA (Susan, Patrick and Larry) on Thursday from 11 to 12:30 and this information will be covered.

Just let me know if you'd like any additional information.

Thanks,
Suzanne

Subject: RE: EDGI report talking points

I've seen the report, I have some R8 specific talking points I am going to suggest we use. This report is built off of the mid-year assessment that OECA released, correct?

Doug and Deb –

OECA developed the attached talking points in response to the EDGI report.

Subject: EDGI report

EDs and RCs:

Attached is a recently-issued report by EDGI (Environmental Data & Governance Initiative) that is very critical of environmental enforcement at EPA. I'm sharing the report for your awareness, as you may get questions about it.

We are also compiling and verifying our FY2018 results, and expect to share them with you soon.

Larry
